## What is audience targeting advertising?

The audience targeting advertising is able to deliver your advertising directly to the target readers using data such as age, location, interests, browsing activities, etc..

We get cookie data of readers and if he or she is member of ITmedia, we are able to match their profiles. Using this user information, it is possible to deliver advertisements tailored to specific target readers.

#### **Utilization of audience data**

@IT collects audience data such as corporate information which reader belongs and his or her browsing data. By using these information, we can deliver the best message to the appropriate audience and maximize the advertising effect.

## **Utilization examples of audience data**

### **Industry**

You can reach your target industry from three classification which are large, medium and small categories.

### **Company size**

You can deliver your ads to segmented targets from ten levels of annual sales and company sizes etc.. (see p.5)

### Retargeting

You can continuously reach the readers who match the segments such as industry type, company size, ITIkeyword or specific advertorial.

### **ITI-Keyword**

Approx. 250 IT keywords which defined by us are tagged in every article. You can target only the readers who are interested in specific genres.

### Major keyword

You can use the article browsing history / extracting the keywords included in the articles.

### **Company name**

You can target a specific company based on IP address.

## **@IT Audience targeting advertisings**

#### Location: All articles of @IT except for some pages

- Industry type is provided based on the IP address of corporate information by Cyber Area Research,Inc. However it cannot decide that in the case of access from ISP.
- Industry type is not guaranteed 100% accuracy.

#### **■** Spec

Audience targeting rectangle (1 <sup>st</sup> and 2 <sup>nd</sup> )	Banner size: W 300pixel × H 250pixel (or H 300pixel) File size: Under 50KB File format: gif/jpeg/png It can be replaced up to once during the period. Receiving a manuscript deadline: 3 business days ago	
Audience targeting title banner	Icon and text Icon size: W 60pixel × H 45pixel File size: Under 12KB Text: Within 23 letters in Japanese Banner Banner size: W 468pixel x H 60pixel File size: Under 30KB File format: gif/jpeg/png It can be replaced up to once during the period. Receiving a manuscript deadline: 3 business days ago	
Audience targeting super banner	Banner size : W 728pixel × H 90 pixel File size : Under 30KB It can be replaced up to once during the period. Receiving a manuscript deadline : 3 business days ago	

#### ■ Targeting condition list (For details, see P.5 - 7)

	Location	Browser	Company name
Targeting Attribute	Job category (Members only)	OS	Industry type
	Job title (Members only)	Device	Annual sales / Company size
Behavioral targeting	Keyword	URL	ITI-keyword

#### ■ Price

Impression	Unit rate	Minimum execution price	Minimum period in calculation of impression
100,000imp~	1 <sup>st</sup> rectangle banner 5.0 JPY(*2)	300,000 JPY~	1 month ~(⊛3)
	Super banner 2st rectangle banner 3.0 JPY (*2)		

- \*1: If it is less than 100,000 impressions the specified conditions, we will consult about the terms and conditions.
- \*2: If you want to add the targeting condition, the imp unit price is added by 2.0 JPY per condition.
- \*\*3: This is the impressions guaranteed product, it will end at the time when it reached target imps. (It is available for frequency control)
  Depending on the access situation, we may extend the calculation period of impressions we tell you in advance.

## **Reader profile**

Annual sales (JPY)		
Less than 100 million		
100 million - under 500 million		
500 million - under 1 billion		
1 billion - Under 5 billion		
5 billion - Under 10 billion
