

Secure locking! The suspended load is safely secured

# KITO SELF-LOCKING HOOK

for LB  
1t-3.2t

for CB  
0.5t-5t

for ER2  
125kg-3t

for ED  
60kg-480kg

- 1 Secure locking!**  
Since the hook won't open unless the trigger is pressed, the suspended load is safely secured.
- 2 Automatically locks when loaded!**  
Hook locks securely when loaded - even if you forget to lock it.
- 3 Frees up both hands to position the load!**  
Operators have the freedom to use both hands when loading the hook.
- 4 Wide hook throat opening!**  
Easily accepts wide slings.
