Sponsored session

Sponsored session can be hosted by your company. You can share the information about you and your solution.

* Please prepare pre-recorded file.

Survey (in session / at your booth)

Survey asking feedback or information to visitors can be posted in your sponsored session or your booth.

- * Single, multiple or free-format type questions.
- * By clicking "Survey" button, your survey will be displayed.

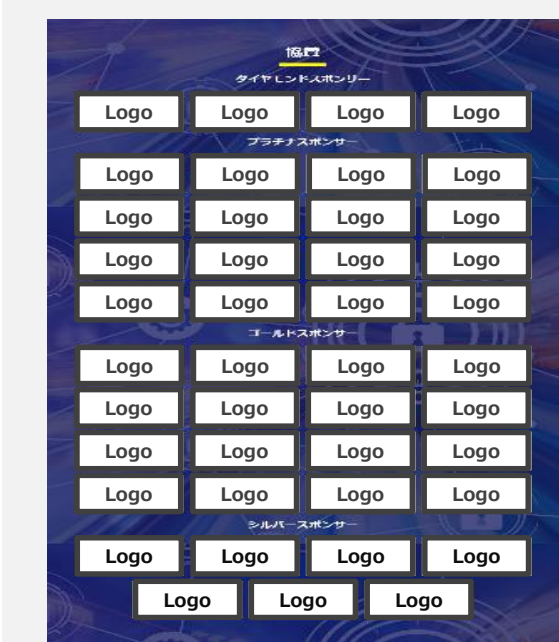

Downloadable file

Presentation document or additional asset can be shared on your sponsored session.

- * Only 1 document
- * PDF file or link to your website.

Logo

Your company logo and its link can be posted on our event site.

Report

ITmedia will conduct a questionnaire survey of general visitors, and the results will be provided in the form of an exhibition report after the exhibition.

Items: List of companies to which the applicant belongs, prefecture where he/she works, industry, job title, position, employee size, involvement in introducing products and services, and topics of interest. Viewer/satisfaction by session, seminar satisfaction, multiple questions appropriate for each other event.

*This information is provided in aggregate data, not including personal information.

*Images are sample.

Exhibit materials at your company's booth

Exhibit content that showcases your solutions

A dedicated page for each sponsor will be available in the exhibition hall.
PDF data, video files, and external links (e.g., landing pages of your services, YouTube videos, etc.) can also be posted. Please make use of the page to promote your messages to the visitors.
Each company can also conduct a voluntary questionnaire for visitors.

When visitors access your company's dedicated page, they are counted as your contacts and you can view their list information on the online reporting site..

It is the titles that determine whether or not your materials will be clicked on!
It is important to include phrases that are relevant to the issues and interests of the participants, rather than content that pushes your services/products to the forefront.

*Images are sample.

Session recording support

Easy video production with professional equipment!

Professional equipment and a recording venue will be provided, making it easy for you to produce your video. The speaker's face + material slides will be recorded at the same time.

A title and theme can be included in one place on the upper right corner of the screen.
Online recording is also available.

JPY 180,000

Add ABM data to generated leads

Intent visualization
ABM data for precise targeting

ABM data obtained by analyzing ITmedia's content browsing status, which allows you to infer each company's implementation consideration status, will be added to the delivery list. Visualizing corporate intent with ABM data enables efficient deal discovery from delivered leads.

※Due to data aggregation work, delivery will be delayed one business day from the usual date.

Distribution platforms

The venue configuration and delivery platform, including operational systems, are subject to change for certain reasons.

Risks associated with online seminar streaming

Live streaming always involves risks. Please be aware of the risks below and the measures we have taken to prevent them.

●**Risk 1: Trouble with Internet connection and Internet service providers**

Both video and audio may drop out. We will immediately switch to streaming on a backup PC and backup line.

●**Risk 2: Failure in live streaming platform**

By storing a buffer during delivery, it reduces the phenomenon of video and audio interruptions due to the user environment.

The system is redundant so that backup delivery is always available as a countermeasure against failures, but in the unlikely event that the delivery platform fails, an apology for the suspension of delivery will be sent to viewers via e-mail, and they will be guided to the on-demand version at a later date.

●**Risk 3: Power failure**

Both video and audio may drop out. We will announce an apology for the suspension of the streaming from the backup PC and will provide an on-demand version at a later date.

●**Risk 4: Equipment failure**

Both video and audio may drop out. We will immediately switch to streaming on a backup PC and backup line.

● **Risk 5: Failure on the viewing side**

A single (10% or less) viewing failure relative to the total number of views is likely to be caused by the viewer's environment, and will be handled individually in response to inquiries.

If similar symptoms are seen in units of 10 (reported on site), we will announce an apology for suspension of streaming and provide an on-demand version at a later date.
